## RISK FACTORS

Investors should know that Investasia Growth Fund is not a guaranteed or assured return scheme and the past performance of the Sponsor and their affiliates / AMC does not guarantee future performance of the Scheme. The name of the Scheme does not in any manner indicate either the quality of the Scheme or its future prospects and returns. Investing in the Investasia Growth Fund involves some general risks and some scheme specific risks that investors should carefully consider before investing in the Fund.

### General Risk Factors:

- I. Due to the fluctuation of the price/ value/ Interest rates of the securities in which Scheme invests, the value of investment in the Scheme may go up or down depending on the various factors and forces affecting the economy, capital markets and money markets.
- II. Government policy and tax laws may change, affecting the return on investments of the fund, which may eventually affect the NAV and return of the Units.
- III. Large number of redemption requests, may lead to an asset-liability mismatch and therefore may require the investment manager to make a quick sale of the securities leading to realignment of the portfolio and consequently resulting in investment in lower yield instruments.
- IV. Delays or other problems in settlement of transactions could result in temporary periods when the assets of the Scheme remain idle and no return is earned there on. The inability of the Scheme to make intended securities purchases and sales, due to settlement problems, could cause the Scheme to miss certain investment opportunities.

## 1.8 Systematic Investment Plan (SIP)

A Systematic Investment Plan or SIP is a smart and hassle-free mode for investing money in mutual funds. SIP allows an investor to invest a certain pre-determined amount at a regular interval (monthly, quarterly, yearly etc.). A SIP is a planned approach towards investments and helps to inculcate the habit of saving and building wealth for the future.

### **Buy and Surrender in SIP Process:**

An investor can invest through SIP either by auto debit system provided against investor's Bank Account or by providing monthly predetermined cheques via selling agents at a regular interval (monthly/ bi-monthly/ quarterly). Investor must have a BO Account; he/she will get the SIP units in his/her BO Account and get a 1% discount from ongoing Weekly “Investor's Buy Price” of the mutual fund.

It is advisable to continue SIP investments with a long-term perspective, however there is no compulsion. Investors can discontinue the plan at any time. If an investor wants to terminate the SIP before two (2) years, 1% discount from the “Investor's sale/ surrender price” will be applicable on total accumulated invested amount on the date of cancellation of the scheme. After maturity of SIP, the investor can easily surrender his/her total units through the AMC or the Selling Agents.

**Benefits may be offered for SIP Investors such as:**

SIP encourages a disciplined investment; while invested through SIP, investor commits himself/herself to save regularly. Different benefits may be offered as follows:

- **Flexibility:** Investor can start SIP with a very small amount i.e. BDT 3,000/ BDT 4,000/ BDT 5,000 or multiple of additional BDT 1,000. One can also increase/ decrease the amount being to be invested in regular fashion.
- **Flexible SIP Tenor:** The SIP will be offered for at least 2 years or any other higher period set by the AMC. However, investor can set SIP scheme for 3years/ 5years or as decided by the Asset Manager. After this period, the individual scheme will be matured and may surrender or continue after maturity. If surrendered, no fees/ charges may be charged on surrender and may also offer highest premium over the declared surrendered price at that time.
- **No Minimum lot size:** There will be no minimum lot size under the SIP as like normal investors. Based on “Investor’s Buy Price” per unit available for SIP investors, units will be credited to investor’s BO account. However, any fraction amount remaining will be converted when it sums up to one unit. The fractional amount will be kept as liability of the fund in a separate account head.
- **CIP option for the SIP investors:** SIP investors can choose either option of cash dividend or Cumulative Investment Plan (CIP). If a SIP investor chooses CIP (i.e. Dividend reinvestment process) instead of cash dividend, they may also enjoy CIP units at a discount of prevailing “Investor’s Buy Price” used for CIP conversion. After CIP conversion, they will get dividend on total number of units in the next year.

**Detailed of SIP Scheme, Scheme information will be provided in the Scheme Brochure in future**

## CHAPTER 2: BACKGROUND

### 2.1 Preamble to the formation of Investasia Growth Fund

Mutual Fund is an investment tool that collects pool of fund from individual and institutional investors with a view to investing the fund in securities like stocks, bonds, money market instruments and other securities. Mutual funds are the most cost-effective way to diversify the investment portfolio across different asset categories. Moreover, mutual funds offer professional money management expertise at a reasonable cost. Especially in a developing country like Bangladesh where mass people are ignorant about investment management strategies, importance of such professional management services are beyond question.

The origin of mutual funds is often cited to be traced in Europe back in 19th century. By the time, mutual fund industry grew enormously with innovation of different investment strategies catering the need of different types of investors.

Recognizing the huge untapped market potential of mutual fund industry in Bangladesh and the need to offer a reliable solution for investment to the people, Investasia Capital & Asset Management Ltd. has begun the process to launch its first open-end mutual fund namely “Investasia Growth Fund” subject to successful completion of regulatory compliance. In order to cater diverse investment needs of people, the “Investasia Growth Fund” will aim to generate long-term capital appreciation through investment predominantly inequity and equity related instruments.

### 2.2 Necessity of Investasia Growth Fund in the Context of the Current State of Affairs of the Capital Market of Bangladesh:

The capital market of Bangladesh is still in a nascent stage which portrays both opportunities and challenges. Though stock exchanges were formally established as early as 1954, activities remained very low until 1990s. Market experienced both bubble and burst during its journey of around six decades. Though over the years the capital market is transforming in to a more structured and regulated form, it is still lagging behind in terms of number of stocks listed, asset classes available for investment etc. In emerging markets like Bangladesh where mass people lack the knowledge of proper investment decision, the scope of mutual fund industry, that offers professionally managed investment management service, is very bright. The mutual fund industry of Bangladesh is still very small compared to other countries.

In line with the above status, there is a significant need for new and diversified capital market instruments including mutual funds.

### 2.3 Advantages of investing in Investasia Growth Fund:

Investasia Growth Fund will be managed in manner that will ensure utmost benefit for the investors from their investment. Generally mutual funds are designed in such a way that reduces the risk of investment compared to direct investment in other securities like shares, debt instruments etc. In addition, investors will enjoy the following advantages from investing in “Investasia Growth Fund”:

- II. Investasia Growth Fund will ensure adequate investment in the growth assets (predominantly in equity and equity related instruments) to fulfill the ultimate investment objective of providing capital gain in the long-run. - III. Experienced professional management will help identify and secure potential investment opportunities.
- IV. The fund will offer minimum 50% of annual realized profit as cash dividend on regular basis. However, investors will have the discretion of choosing between cashing out the dividend and

  - VIII. As an open-end fund is not traded in the secondary market, its price will not be subjected to the interaction of demand and supply. As purchase and surrender price will be calculated based on Net Asset Value (NAV) as prescribed in সিকিউরিটিজ ও এক্সচেঞ্জ কমিশন (মিউচুয়ালফান্ড) বিধিমালা, ২০০১, the price of the fund will be more stable than that of other securities traded in secondary market.

A flexible yet disciplined investment process is the hallmark of a professional investment management fund. Incorporating the intellectual capital and collective experience of the ICAML's senior investment professionals, ICAML has developed a 7-step investment process:

Step 1: Universe Selection: The first step of the investment process begins with identifying the universe of stocks. These stocks are then classified in four categories based on ICAML's proprietary selection methodology.

Step 2: Focus List: The universe of stocks is then narrowed down to build a prospective focus list. This step is usually done in phases. The first phase involves narrowing down the list through ICAML's proprietary filtering process. The second phase involves narrowing the list further through the fundamental research inputs.

Step 3: "Top Down" Analysis: This step involves analysis of macroeconomic trends, analysis on broad market indices, analysis of fund flow trend to formulate sector biases and sector allocations.

Step 4: "Bottoms Up" Company Analysis: This step involves a combination of individual security and financial instrument analysis based on multiple parameters, including valuation, qualitative analysis to identify business trends, competitive outlook and corporate management. These analyses are supplemented by company visits and information exchange with management.

Step 5: Portfolio Construction: The next step is to create an optimum portfolio with the goal of maximizing returns and minimizing risk.

Step 6: Risk Management: This step applies the pre-determined position limits to the portfolio, limiting sector exposure and individual stock exposure. Maintaining lower volatility is also an important concern; to this end, beta adjustment and other sophisticated risk analysis is used.

Step 7: Trade Execution: Investasia uses a combination of quantitative strategies and market information to maximize its trade executions. To this end, Investasia has selected a panel of brokers to execute its trades in an efficient and confidential manner.

### FUNDAMENTALS OF MUTUAL FUND

I / We understand and am/are aware of the following basic points about mutual fund investment:

আমি / আমরা মিউচুয়াল ফান্ড সম্পর্কিত নিম্নোক্ত বিষয়গুলোর সাথে অবগত -

1. Mutual Fund is a long-term wealth accumulation tool.

মিউচুয়াল ফান্ড একটি দীর্ঘ মেয়াদী সম্পদ বৃদ্ধিকারী মাধ্যম।

2. The longer an investor stays with a mutual fund, the greater benefit s/he is expected to derive.

একজন বিনিয়োগকারী যত বেশি সময় মিউচুয়াল ফান্ডে টাকা রাখেন, তার ততো বেশি লাভের সম্ভাবনা থাকে।

3. A mutual fund does not give return at fixed rate.

মিউচুয়াল ফান্ড কোন নির্দিষ্ট হারে মূল্যফল প্রদান করেনা।

4. In short term, upward/downward movements of the Net Asset Value (NAV) of mutual fund is a natural phenomenon of investment.

স্বল্পমেয়াদে মিউচুয়াল ফান্ড ব্যবস্থাপনার Net Asset Value এর উর্ধ্বমুখী / নিম্নমুখী পরিবর্তন একটি স্বাভাবিক প্রবণতা।

5. By regulation, investments of mutual fund are done in diverse assets and as a result, investment risks are mitigated.

মিউচুয়াল ফান্ড ব্যবস্থাপনার আইন অনুযায়ী ফান্ডের অর্থ ভিন্ন ভিন্ন খাতে বিনিয়োগ করতে হয় এবং এর ফলে বিনিয়োগ ঝুঁকি হ্রাস পায়।

6. Tax Advantages\* for the individual investors:

ব্যক্তিগত বিনিয়োগকারীদের জন্য কর সুবিধা -

- No tax against income up to BDT 25,000.

মিউচুয়াল ফান্ড থেকে ২৫,০০০ টাকা পর্যন্ত আয়ের উপর কোনো কর প্রযোজ্য নয়।

- Allowable Investment for tax rebate.

এটি কর ছাড়ের (Tax Rebate) জন্য একটি বিধি সঙ্গত বিনিয়োগ।

- According to Income Tax Ordinance, 1984 and as provisioned in Budget for FY 2020-2021. This is subject to change as provisions of prevalent budget.
